Cremation Garden

Cemeteries are part of our heritage - a history of our people, a place of memories and peace. The present trend indicates that over 82% of families in Kamloops choose cremation as the preferred method of disposition.

In response to this trend, Kamloops has developed the Gateway Cremation Garden for cremation memorialization.

Located in a beautiful setting with a tremendous view, the Columbaria Walls, Estate Column, and Family Pedestals are all designed to contain two cremated remains within compartments called niches.

Memorialization items such as photos and name plaques are attached to the niche granite face.
