WHAT IS THE ARENA MULTIPLEX?

The Arena Multiplex would house up to four rinks for multiple ice sports. It would be built on City-owned land at 2070 Hillside Drive, against the boundary of Kenna Cartwright Park. The proposed facility could include a walking track, fitness facility, child play spaces, food and beverage services, and amenities for park users such as bike repair stations and storage, showers and washrooms. Complementary services such as skate sharpening, equipment rentals, and other recreational services could be included. The Multiplex would also provide multi-use space when the ice is removed, which could be used for hosting events and tradeshow, or dryland sports like lacrosse. Additional arena capacity could also allow the City to respond as a host community during emergency events without disrupting recreation and community events.

WHAT ARE THE FUTURE DEVELOPMENTS UNDER THE BUILD KAMLOOPS INITIATIVE?

Curling and Racquet Sport Complex

The proposed curling facility would incorporate the expanding needs of other sports organizations like pickleball, racquetball, and squash that lack play facilities. This facility could increase the City's hosting capability for national and international events and training camps.

Indoor Field Facility

A multi-use indoor field space would provide year-round training opportunities for a variety of field sports, including soccer, rugby, ultimate frisbee, and football. It could increase the City's opportunities to host international competitions, training camps, and events.

Aquatics Facility

This City is actively evaluating locations that could be home to a new leisure pool facility that could accommodate swim lessons, AquaFit classes, and recreational swim time for residents of all ages, particularly families with children.
